

## **Formula Fridays**

**December 13, 2013 (Due on December 18, 2013)**

We have been learning a lot about real-life applications for graphing and mean, median, and mode. Pick one of these topics and discuss how we would use it in real-life. Give examples to support your answer.

**Please note that you can share your answer in any way that you want - from a recording to a written response to a blog post. Be creative!**
