

Marvelous Media Mondays

We have been learning a lot about advertisements. With advertisements, it's important to have appealing images. In Art, we are working on a mural and deciding what images we should have in that mural. Our mural needs to represent our entire school community, which means your parents' opinions matter. Ask your parents the following four questions:

1. What colours would you want to see included in our mural?
2. What images would you want to see included in our mural?
3. What words or slogans should we include in our mural?
4. What materials should we use to create our mural?

Record the answers to **all** four questions (on paper or on a personal device) and be ready to share the answers in class **tomorrow**.
