

Deep Learning Labs

Transforming Relationships: We will explore tools and strategies that will build partnerships with students and families. Hear from teachers who have focused on using student voice and strategies to support students to take greater responsibility of their own and each other's learning. Come ready to work collaboratively to design rich learning experiences that will transform relationships.

Transforming Opportunities: We will explore tools and strategies that will scaffold and personalize the learning process. Hear from teachers who have used a variety of instructional and assessment strategies to deepen the learning. Come ready to work collaboratively to design rich learning experiences that will transform opportunities.

Transforming Environments: We will explore tools and strategies that will build a culture and climate for deep learning. Hear from teachers who have focused on creating a student centered classroom that engages all learners including parents. Come ready to work collaboratively to design rich learning experiences that will transform environments.

Resources to Bring:

- **NPDL Tools**
- **Technology if possible**

Sign up is limited to 40 participants. Previous experience with NPDL will be helpful. If you have any questions please contact Laura White or Kelly Maudsley.
