

HE-20M

20 Inch High Velocity Fan Pro Model

The 20 Inch High Velocity Fan Pro Model is a compact and efficient fan designed to improve air circulation and ventilation in indoor spaces. With its powerful motor, it moves a significant volume of air, removing stale air, and humidity. Its versatile design allows easy installation in various duct systems, ensuring a fresh and comfortable environment.

Specification

HE-20M

Operating voltage

Operating voltage	200-277VAC
-------------------	------------

Rated current

Rated current	3.0A Max.
---------------	-----------

Rated input power

Rated input power	610W Max.
-------------------	-----------

Max. air flow

Max. air flow	4980 cfm
---------------	----------

Max. static air pressure

Max. static air pressure	150 Pa
--------------------------	--------

Operating temperature

Operating temperature	-4~140°F
-----------------------	----------

Mean Time to Failure

Mean Time to Failure	50000H (25℃)
----------------------	--------------

Cells Lightning Protectio

Cells Lightning Protection	470VAC
----------------------------	--------

IP Rating

IP Rating	IP54
-----------	------

Dimensions

Dimensions	310mm x 560mm x 593.9mm 12.20" x 22.04" x23.38"
------------	--

Net Weight

Net Weight	29.76 lbs
------------	-----------

No. of Blades

No. of Blades	5
---------------	---

Rotating Direction

Rotating Direction	CCW
--------------------	-----
