

Course Delivery

What will the Basic TTE course deliver?

- 7 eLearning tutorials providing a consistent level of background information.
 - 50 basic TTE case studies focusing on 2D and color Doppler assessment.
- Each case study consists of an assessment in the form of multiple choice questions that may relate to the case specifically or to general information highlighted by the case.
 - Optional 30 Log books to record clinical cases.

COURSE MATERIAL

This is an online course. Course materials can be downloaded to iPad, Android or Windows tablets or can be accessed online using a browser. The student will receive a "Getting Started" email with instructions on how to receive the course material.

AFTER THE COMPLETION

At the end of the program you will receive a Completion Certificate including all of your tutorials and case studies completed.

BASIC TRANSTHORACIC ECHOCARDIOGRAPHY (TTE) COURSE
