

Fifth meeting of the IAOA Executive Council (EC)
Public Report (24 June 2009)

Attendees:

- Nicola Guarino (chair)
- Stefano Borgo
- Paul Buitelaar
- Antony Galton
- Michael Gruninger
- Riichiro Mizoguchi
- Laure Vieu
- Peter Yim

The EC thanks P. Yim for the organization of the IAOA virtual presentation at Ontolog. The presentation was successful both for the attention it attracted to the Association and for the interesting questions that were raised.

Due to the presentation and the other advertising activities the number of subscriptions to the iaoa-general mailing list increased to over 230. Once the membership list is active, the purpose of the iaoa-general list will be discussed further.

The advertising process goes on. The EC will make an extra effort to make sure that information about the Association is available at a large number of conferences. There was some problem in adding a dedicated page in Wikipedia, the EC will investigate this further.

The IAOA is open to professionals and non. It remains a non-commercial association for the time being. This aspect will be discussed further in the future looking at the Association size and implemented activities.

(End of Report)
