

WHY DO WE PRAY THE WAY WE DO?

When we pray, we go before the throne of God together. By praying corporately, we remind ourselves that we are not alone, but we are praying as one body and joining millions of other believers around the world in crying out to God. You will notice as one of our pastors leads us in prayer that we begin by interceding for the needs of our world and the global church. We then pray for our own country and ask God to have His way here. Next, we pray for our own city, asking that God would use us to build His kingdom here in Irving, TX. We then pray for the needs of our own people, those in our community who need hope and healing, and those who are experiencing grief and heartache. Finally, we spend a moment in silence praying for those things that weigh heavy on us.

Scripture to consider: Matthew 6:9-13; Hebrews 4:16; 1 Thessalonians 5:16-18; Jeremiah 29:12.
