Diabetes Management is Getting Easier!

- ◆ The patient's CDE will be able to review blood sugars and will receive automatic alerts for high and low sugars.
- ◆ CDEs and patients can chat together and work out plans and strategies for improvement.
- ◆ When the patient's CDE is not available there will be a back-up CDE ready to answer questions and assist as needed.
- ◆ Patients can share a journal of activity, carb intake and medication use with the CDE.
