INTERNATIONAL MOULDING BEGAN WITH A SMALL FRAME SHOP OUTSIDE BIRMINGHAM, AL IN 1988.

Richard Thompson began the business after 20 years experience in mergers, acquisitions, and start-ups with Sears company, work which brought him into contact with some of the leading marketplace visionaries such as Sam Walton and Sol Price.

That experience led Mr. Thompson to a start-up of his own, the Frame Factory, and soon he and his sons grew the store to multiple locations. With that success came a new vision: to build a chain of supply offering great value and service to more frame shops for fair, non-inflated prices. Taking that concept, and some hard work, International Moulding was born.

Mr. Thompson built relationships with manufacturers around the world in order to pass-through improved costs and better value in a wide range of choices. That vision has grown to over 12,000 products now available through IM distribution. Today the company is still family-owned and operated with 18 locations around the USA, a team of over 400 employees, and a management group of the most experienced leaders in the industry.

International took another step forward with a new division - IM Graphics Group - to provide customers an opportunity to expand their business in an easy, economical way through customized printing.

The goal of IMG is to offer retailers and wholesalers alike the means to take on jobs of any size or scale, profitably and economically—with a broad range of choice and size options. See **pg. 139** for more information on this exciting program.

- **IM Distributors may not carry every item in this catalog BUT CAN SPECIAL ORDER any item herein. Distributors may also carry products not shown in this catalog as each local market is unique. Please consult with your local DC or sales rep to confirm product availability.**
- **Please anticipate 7-14 days for items that require transfers from our main warehouse or special order from a supplier. Some items may require longer, check with your local DC.**
