Condition yourself to be aware one of the most neglected Mitzvah opportunities – the message of the Mezuzah. Right after the command of Mezuzah G-d promises us L'ma'an Yirbu y'meichem vimei v'neichem – In order that you and your children should live long. So let's take notice of the Mezuzah on each doorpost that we pass and think for just a second that G-d is in the room that we are entering and we will try to please him with whatever we are doing. This discipline can prevent many disputes and mishaps.
