

****Never mix and match pin sizes while attempting to achieve desired PSI****

Example- don't use a blue and gray pin to achieve 2500 PSI, instead use one orange pin.

Part #	Size	Pin Color	
3501035	#16	blue	1 pin= 1000 PSI
3501036	#20	red	1 pin= 1250 PSI
3501037	#30	grey	1 pin= 1500 PSI 2 pins= 3000 PSI
3501038	#40	green	1 pin= 1750 PSI 2 pins= 3500 PSI
3501039	#50	black	1 pin= 2250 PSI 2 pins= 4500 PSI
3501040	#60	orange	1 pin= 2500 PSI 2 pins= 5000 PSI

****The general rule of thumb is to set the relief valve at 1.1 to 1.25 times your working discharge pressure (see owners manual for details)**
