

# NURSING AT CENTRAL

## YOUR MAJOR IS JUST THE BEGINNING.

Central's strong academic programs ensure you have a solid foundation in your area of interest. But there's much more. We know you want meaningful experiences – not just lectures – that will prepare you to go out into the world and make an impact after graduation. You'll go beyond your major with hands-on experiences, classes in multiple disciplines and mentors to help you figure it all out.

You'll learn from faculty who are experts in their fields, but you may also partner with them on research projects. No matter your major, you'll have room in your schedule for study abroad, internships and exploration – you'll never be forced onto a narrow academic path. Central is where you'll discover the future you want to pursue.

## INDIVIDUALIZED ATTENTION MAKES A DIFFERENCE

**Small classes and laboratory sections mean faculty provide you with personal attention.**

CENTRAL PARTNERS WITH ALLEN COLLEGE IN WATERLOO FOR NURSING. THE PROGRAM ALLOWS YOU TO EARN A BA DEGREE IN BIOLOGY, PSYCHOLOGY, SOCIOLOGY, EXERCISE SCIENCE, COMMUNICATION STUDIES, INTEGRATED STUDIES OR ANTHROPOLOGY FROM CENTRAL AND A BSN FROM ALLEN COLLEGE.

**Advisors within each major work with you to ensure all requirements are met for your Central degree and prerequisites for Allen College.**

## THE CENTRAL DIFFERENCE

- Personalized advising ensures you meet coursework requirements
- Guaranteed admission to Allen College
- Work closely with Central faculty – even study abroad with them
- Job shadowing opportunities are available across the state
- You may apply for the master's program (nurse practitioner) at Allen at the same time as the BSN
