

PRE-HEALTH AT CENTRAL

YOUR MAJOR IS JUST THE BEGINNING.

Central's strong academic programs ensure you have a solid foundation in your area of interest. But there's much more. We know you want meaningful experiences – not just lectures – that will prepare you to go out into the world and make an impact after graduation. You'll go beyond your major with hands-on experiences, classes in multiple disciplines and mentors to help you figure it all out.

You'll learn from faculty who are experts in their fields, but you may also partner with them on research projects. No matter your major, you'll have room in your schedule for study abroad, internships and exploration – you'll never be forced onto a narrow academic path. Central is where you'll discover the future you want to pursue.

BE FULLY PREPARED FOR YOUR NEXT STEP.

Central's pre-professional health programs prepare you for admittance at top graduate schools.

**YOUR CLOSE WORKING
RELATIONSHIPS WITH
CENTRAL FACULTY CAN
MAKE A VITAL DIFFERENCE
IN ACCEPTANCE INTO
GRADUATE PROGRAMS.**

**Central guides your
steps with individual
appointments to
identify career
options, job shadowing
opportunities, assistance
with internships,
help with grad school
applications and more.**

THE CENTRAL DIFFERENCE

- Choose any major, then work with faculty advisors to outline your best preparation for the career you want
- Thorough background through respected science programs
- Small class and laboratory section sizes for personal interaction
- Unique study abroad opportunities for pre-health students
- Connection to alumni in health careers
- Hands-on experience with local professionals
