

# Bachelor of Commerce (BCom) in International Supply Chain Management

SAQA ID: 110628

## OVERVIEW OF PROGRAMME

Our Bachelor of Commerce (BCom) in International Supply Chain Management degree is an IMM Graduate School qualification on NQF level 7 and is quality assured by the Council on Higher Education (CHE) South Africa. You can complete this qualification in 3 years, but if life gets in the way, you have 8 years to wrap it up.

In today's ever-changing world, built on technology, e-commerce and global trade, supply chain management is increasingly becoming a pivotal personal competence, and a key competitive advantage for many businesses. This trend is manifesting in a worldwide shortage of supply chain management (SCM) skills and, in particular, a critical skills shortage in Sub-Saharan Africa. Hence the need for comprehensive and relevant SCM education and training.

*IMM Graduate School's BCom in International Supply Chain Management is accredited by the Chartered Institute of Logistics and Transport (CILT), the global body of international professionals for everyone who works within supply chain, logistics and transport.*

The content is structured to introduce foundational theory and to also focus on practical implementation through a variety of projects using topical local and international case studies. The degree includes a module offered in partnership with a leading global ERP company, to prepare students for the practical realities of a supply chain role. This project-based module provides students with an additional external certification that will differentiate IMM graduates from other students.

## MODE OF DELIVERY

The IMM Graduate School offers its qualifications primarily in an online distance format, augmented by a variety of additional content. The core material is available in a compelling digital presentation, complete with Pacers, self-assessment opportunities, links to further material, articles of interest, and more. This digital platform also serves as the primary point of contact and communication on academic and administrative matters with a dedicated team to respond to student queries.

The content delivery is supported by regular eMasterclasses recorded and posted on the eLearn platform. eDiscussions facilitate further student to lecturer interaction.

-  **Duration:** 3 years minimum
-  **Intakes:** March and August
-  **Delivery Mode:** Online distance learning
-  **Certification:** NQF Level 7
-  **Careers:** Supply Chain Managers, Project Managers, Logistics, Transport
