

CLAX[®] Build

12B2

Booster - fatty soils, medium waterhardness

A liquid alkali builder/booster with anti-graying and sequestering agents, for use in commercial and on-premise laundries.

Features & Benefits

- Improves soil removal, especially of food and fat stains, when used in combination with a surfactant booster or main wash detergent
- Prevents greying of linen by stabilizing soil particles in the wash
- Improves wash performance by affecting the soil-fiber interaction (swelling)

Applications

- For use in low-to-medium water hardness
- For use in commercial and on-premise laundries. Do not use in homestyle machines

Clax[®] Build is a liquid alkali builder/booster that contains alkaline and special chelation ingredients for use in low-to-medium water hardness conditions in commercial and on-premise laundries.

Use instructions

- This product can be used in all commercial stainless steel washing machines.
- Do not use in a non-commercial (homestyle) washer.
- Use this product as directed by your Diversey representative.
- This product is designed to be dispensed directly to the laundry machine by a Diversey approved dispenser and should not be diluted manually.
- It is dispensed at various rates depending on soil load, fabric type, water conditions and laundry equipment.
