

### “EH” Series

#### AMTOPP X-TREME™ Stretch Film

This technologically advanced multiple layered structured cast film renders superior strength and stretch allowing maximum load holding force & minimum film usage.

The AMTOPP X-TREME™ stretch film is engineered for optimum performance with total versatility on any high-speed automatic stretch wrapping equipment regardless of the load shape & weight.

The AMTOPP X-TREME™ film's differential cling feature with excellent inside cling makes the film suitable for many one-sided cling applications. Furthermore, the quiet unwind and clarity of the film makes the AMTOPP X-TREME™ stretch film the ideal choice in any automated operation environment.

#### Features

- Newest multiple layered structure
- Excellent stretch
- High tensile strength  
Superior load holding force
- Differential cling with superior inside cling
- Outstanding puncture resistance
- Exceptional tear resistance
- Great optical clarity for electronic scanning
- ISO 9001:2000 Certified

## “EH” Series

### High Performance Machine Film

AMTOPP X-TREME™ stretch film is a High Performance machine film. Designed for use on high-speed automatic stretch wrapping equipment, the AMTOPP X-TREME™ “EH” film renders the extra stretch and strength needed for fully automated operations. The film’s differential cling featuring superior inside cling and reduced cling and quiet unwind make it easy to work with, and the excellent clarity allows bar-code scanning at any stage in any automatic handling system.

Product	Thickness (Gauge)	Width (Inch)	Length (Feet)	Net Wt/ Roll (Lb)	Rolls/ Pallet	Net Pallet Wt (Lb)
