## Concentrated Solid Detergent for Manual Warewashing

---

## Economical Dispensing

Wall-mounted, push-button dispenser delivers exact amounts every time. Each dispenser is serviced and adjusted by your Ecolab Specialist to suit your individual soil needs and sink type.

## Streamlined Convenience

Solitaire is ready when you need it. Just push the button to dispense exactly the right amount. No measuring or pouring by hand, no spillage and no waste. Your manual warewashing operation will be cleaner, more convenient, and more efficient.

## High-powered Formula

Solitaire's super-concentrated solid formula loosens up the toughest baked-on food soils and cuts through the thickest grease.

## A Mild Solution

Solitaire uses a unique combination of surfactants to penetrate and loosen food soils. This low-alkaline approach is easier on the hands than higher alkaline alternatives.

## DIRECTIONS FOR USE

- Carefully lift empty container from dispenser and turn upright to avoid spills.
- Remove cap from full container and use it to seal the empty container. Dispose of empty container immediately. Do not reuse.
- If product from empty container contacts your skin or clothing, wash off immediately.
