

# NATURE'S BEST™ ROASTER

## REDUCE REUSE RECYCLE

Utilizes advanced engineering techniques, resulting in a 40% REDUCTION in petroleum-based resins, while providing a structurally stronger container. Manufactured of a unique combination of  $\Delta$  polypropylene and natural, renewable resources, the container is dishwasher-safe. Consumer-REUSABLE, and eligible for RECYCLING.

## HEAT TOLERANT & MICROWAVABLE

Nature's Best Roaster is heat tolerant under heat lamps and in warming units up to 230°F, and is microwave-safe for consumer reheat.

## BETTER MERCHANDISING & TABLE PRESENTATION

Large, unobstructed viewing panels in the lid, combined with anti-fogging technology and venting for a better view and better merchandising of your prepared roasted chicken, turkey, or other hot entrees. Classic black casserole design provides your customer with an elegant table presentation, a serving platter that requires no re-plating.

## LEAK-RESISTANT & DURABLE

Lids are easily secured and will not crack or warp like those made of polystyrene. With an inner/outer double seal, the lid not only applies easily, but is also leak resistant.
