

MAD

Mild Acid Detergent

A concentrated blend of acids and detergents, this product tackles the really tough jobs. It will remove rust, lime and scale from any rust stained surface and all metals. Since it does not contain harsh sulfuric acids, it will not harm floors or drains. Designed to remove soap scum and body oils from shower stalls, restroom floors and swimming pools, this product is formulated to also remove water minerals and lime scale. This mild acid detergent cleans and brightens aluminum and magnesium, stainless steel, copper and chrome. It can also be used to prepare steel or aluminum for painting.

Uses

- Air conditioning
- Aluminum
- Bathtubs
- Boilers and pipes
- Chrome
- Drinking fountains
- Floors
- Showers
- Sinks
- Stainless steel
- Swimming pools
- Tile and grout
- Walls
- Water meters

Benefits

- Concentrated for very economical and effective end-use dilutions.
- Removes soap scum, body oils and grease from bathrooms, showers and swimming pools. Safe to use on porcelain and chrome.
- Restore and rejuvenate surfaces by removing water minerals and lime deposits.

Specific gravity	1.18
Wetting	Very good
Shelf Life	1 year

Acceptance

Acceptable for use in federally inspected meat and poultry plants. Previous classification +A-3 as an acid cleaner for use in all departments.

Directions For Use

Read the entire label before using this product.

Removes rust, oxidation, and corrosion from any rust stained surface and all metals. *Not recommended for use on Formica® or other surfaces harmed by acid products. Test in an inconspicuous area prior to use if unsure.* To clean shower stalls, fixtures, drinking fountains, ceramic tile, floors and walls use 2 ounces detergent per gallon or 16 mL/L (1:64) of water. To remove rust, oxidation and heavy carbonate use detergent undiluted. Allow to soak for 10 minutes and rinse well with water. To clean and brighten stainless steel, aluminum, copper and chrome use full strength, rinse and wipe dry. To delime automatic dishwashers use 2 ounces detergent to each gallon or 16 mL/L (1:64) of water in wash or rinse tank of machine. Run for 15 minutes. Drain. Follow with dishwashing detergent. To remove water spots from glasses use 2 ounces per gallon or 16 mL/L (1:64) of water rinse with potable water.

Safety

Keep out of reach of children. For institutional and commercial use. DANGER: Corrosive. Causes Burns. Vapors harmful. Contains Phosphoric Acid. Avoid contact with skin and eyes.
