

Safety Zone® Light-Weight Vinyl Gloves, Powder-Free, 10x100, Clear, 2.5 mil - Small

Safety Zone® Vinyl Powder-Free Gloves are engineered to provide cost-effective and practical hand protection for a wide range of everyday work environments including foodservice, janitorial, hospitality, and general facility use. Constructed with 2.5 mil vinyl, these disposable gloves are stronger than basic polyethylene options and deliver dependable comfort and flexibility for frequent tasks. The powder-free design undergoes a chlorination process that makes donning and doffing easier, especially with wet hands. These gloves are 100% latex-free, phthalate-free, and silicone-free, helping minimize allergic reactions and skin irritation while supporting a safer work environment. Certified to meet FDA Rule 110.10 and CFR Title 177.1950 standards for food handling and direct contact during manufacturing or packaging, they support hygiene and regulatory compliance in busy kitchens and workspaces. Clear in color with a smooth surface, these gloves are ideal for a variety of general-purpose applications where reliable hand protection and comfort are essential.

****Safety Zone® packaging is being updated to a new look. The gloves are the exact same, but our branding and packaging is being updated. Please note that this will be a rolling change and you may receive mixed packaging styles until our inventory is depleted.****

Key Features

- Vinyl, Powder Free
- Thickness: 2.5 mil, Light-Weight
- Touch screen compatible
- Vinyl gloves are stronger than polyethylene gloves, and offer greater comfort for jobs like food preparation, bussing, and cleaning where gloves will be worn for a greater period of time
- Powder free gloves go through an extra process of chlorinating the gloves to ease donning
- 100% Phthalate Free, 100% Latex Free and 100% Silicone Free
