

Safety Zone® Vitex® Vinyl Exam Gloves, Powder-Free, 10x100, Beige, 4 mil - Large

Vitex® Vinyl Powder-Free Exam Gloves are engineered to provide dependable performance, comfort, and ease of use across healthcare, food handling, hospitality, and general facility environments. Constructed from 4 mil vinyl with a unique PVC blend, these disposable exam gloves offer a snug, stretch-enhanced fit that feels less baggy and delivers better tactile sensitivity compared to traditional vinyl options. The powder-free design supports easy donning and reduces contamination concerns, while the latex-free composition helps minimize allergic reactions for sensitive users. These gloves meet ASTM D5250 examination standards and comply with FDA CFR Title 21 indirect food additive regulations for safe food handling and contact, making them suitable for use in clinical, lab, foodservice, and other professional settings. Their creamy beige color offers a natural appearance similar to latex gloves without the associated allergy risk, and the smooth surface ensures comfort during extended wear. Vitex® gloves balance protection, sensitivity, and reliability for everyday tasks where hygiene and performance matter.

****Adenna branding is changing to Safety Zone®. The gloves are the exact same, but our branding and packaging is being updated. Please note that this will be a rolling change and you may receive mixed packaging styles until our inventory is depleted.****
