

Fusion 9000 Metered Aerosols

90-day air freshener system

Less labor; less waste

Each refill lasts 90 days so there are two-thirds fewer changeouts per year compared to a 30-day system.

Universal actuator

Fits most existing dispensers avoiding any costly dispenser change outs when switching to Fusion 9000 refills.

Eliminates odors

Contains Hygiezene which encapsulates and neutralizes odors. Freshens up to 6,000 cubic feet.

Each spray freshens longer

Fusion's smaller particle size stays in the air longer than competitive sprays with larger particles that fall quickly to the floor.

Environmentally friendly

No VOCs or ozone-depleting ingredients making them available for sale in all 50 states.

Description	Item Code
 Cotton Blossom	MA90-F-000I004M-06
