

Safety Zone® Latex Canner 18 Mil Gloves, Blue, Small

Safety Zone® Latex, flock-lined, gloves, universally known as the “dishwashing gloves,” offer good hand protection for food processing, industrial handling, and pharmaceutical manufacturing, where they are commonly used. These blue 18 mil thick, 12 inch long, natural latex gloves provide a flexible fit, touch sensitivity, and dexterity, for effective use in various applications like food and meat processing, canning, light chemical handling, and operating industrial machinery. Latex canner gloves provide more resistance to cleaning agents, select chemicals, acids, fats, alkalis, alcohols, acetone, and some solvents. These Blue 18 mil thick gloves are stronger against tears and abrasions. The interior of the gloves is constructed with a soft, cotton, flocked lining that absorbs sweat and keeps hands dry and comfortable, while a textured recessed diamond pattern ensures a secure, non-slip grip. They are 12 inches in length with pinked cuffs. Safety Zone® Blue natural latex gloves offer a flexible fit, touch sensitivity, and dexterity, for effective use in various applications and industries. Hospeco Brands Group is trusted by professionals nationwide for delivering high-quality, reliable products that promote hygiene, safety, and efficiency in the workplace.
