

Koda® Nitrile Exam Gloves, Powder-Free, 10x100, Black, 5.5 mil- Medium

KODA® Powder Free Nitrile Exam Gloves are fentanyl and chemotherapy resistant to protect first responders, health workers, and more. Protecting these Protectors is a serious job.

KODA Gloves with Sensitive Skin Technology not only protect the wearer from fentanyl exposure but also provide protection from sulfurs, proteins and chemical accelerators that cause allergic reactions. They are also resistant to chemotherapy drugs, chemicals, and oils.

The packaging clearly displays the symbols that customers look for when choosing gloves with fentanyl and chemotherapy drug permeation protection. Tested in accordance with ASTM D6978 Standard Practice for Assessment of Resistance of Medical Gloves to Permeation by Chemotherapy Drugs and Fentanyl Citrate.

Key Features

- Nitrile
- Complies with FDA CFR Title 21 Indirect Food Additive Regulations Part 174-180
- Examination Grade
