

Safety Zone® Empower® Nitrile Exam Gloves, Powder-Free, 10x100, Blue, 8 mil - Medium

Empower® Blue Nitrile Powder Free Exam Gloves are on average 8 mil thick. The glove fingers are double and almost triple in thickness in comparison to some of the commonly used nitrile exam gloves. With extra thickness, Empower® nitrile gloves are more durable and allow you to work on "rougher" jobs and keep your hands protected and safe.

It is great for EMS, law enforcement, correctional facilities, laboratory, mid to heavy mechanics and industrial applications. It also meets the single-use emergency medical examination glove requirements of NFPA (National Fire Protection Association) 1999 – 2013 standard on protective clothing for emergency medical operations.

****Adenna branding is changing to Safety Zone. The gloves are the exact same, but our branding and packaging is being updated. Please note that this will be a rolling change and you may receive mixed packaging styles until our inventory is depleted. ****
