SAVE TIME AND LABOR:

Extend time between labor intensive stripping and re-coating procedures, while maintaining that “just waxed” finish. No need to schedule extra hours for multi-process floor restoring projects that require extended drying and curing time.

PINE CLEAN SCENT:

SunSwept is a pastel green emulsion that dries clear. The fresh pine fragrance signals the senses and creates a “just cleaned” image. The unique formulation and fragrance of pine makes SunSwept a pleasure to use.

SAFE FOR USE ON MOST FLOORS:

SunSwept is safe to use on all resilient type floorings: asphalt, rubber, vinyl, terrazzo, ceramic tile, quarry tile and all other surfaces unharmed by water.

COMPATIBLE:

SunSwept will not discolor the existing floor finish. It is compatible with all Spartan floor finishes. Use SunSwept frequently to maintain continuous optimal floor appearance between refinishing procedures.

DIRECTIONS FOR USE:

Some individuals may be sensitive to ingredients in this product. Before using, read product label and SDS. Wet floors may be slippery. Prevent pedestrian traffic with signs or barricades.

NOTE: SunSwept is not intended for use as a spraybuff or floor finish. For best performance, reliability and compatibility use Spartan products exclusively.

AUTOMATIC SCRUBBERS:

1. Sweep or dust mop floor.
2. Fill the solution tank with water.
3. To restore gloss and clean floor, add one part SunSwept to thirty two parts water (4 oz./gal. water).
4. For higher performance or maximum economy, experiment with dilutions from 1:10 to 1:40 and burnish or buff as necessary.

NOTE: Due to variances of soil conditions, it is recommended that users experiment with different types of pads or brushes and the amount of application pressure applied to the floor surface.

ROUTINE MAINTENANCE:

Use Spartan SunSwept daily, or at least once a week, to insure continuous optimal floor appearance. Always dust mop or sweep floors before applying SunSwept.

Be sure to read all Directions, Precautionary and First Aid Statements on product labels before use of this or any Spartan product. If questions remain, consult your employer or a physician. Safety Data Sheets for all Spartan products are available from your authorized Spartan distributor or by visiting www.spartanchemical.com.

SPECIFICATIONS:

Percent Total Solids - 26-27%
Percent Non-Volatile Solids - 21-22%
Specific Gravity - 1.020 @ 24°C / 75°F
pH (Concentrate) - 7.8 – 8.2

Stability

- a. Storage -- one year
- b. Accelerated @ 49°C / 120°F -- 60 days minimum
- c. Freeze / Thaw -- can withstand 3 cycles

COVERAGE:

Coverage: Diluted 1:10 to 1:30 (4 to 13 oz./gallon) 5000 – 10,000 sq. ft./gallon depending on porosity of floor.

Distributed by:

PACKAGING	
406460	275-gallon totes
406455	55-gallon drum
406430	30-gallon drum
406415	15-gallon drum
406405	5-gallon pail
406404	1-gallon (4 per case)

Label copy is available in English, Spanish, and French. Secondary labels are also available.
