

FLOOR CARE

Concrete and Terrazzo Daily Cleaner Densifier

A dedicated, daily maintenance cleaner for beautiful floors

Delivers Clean and Protected Spaces

- Cleaner designed for concrete care
- Helps to protect polish investments with each use

Great User Experience

- Fresh scent
- No-rinse cleaning

Optimizes Operations

- Broad use application and compatibility
- Low foam for autoscrubber efficiency

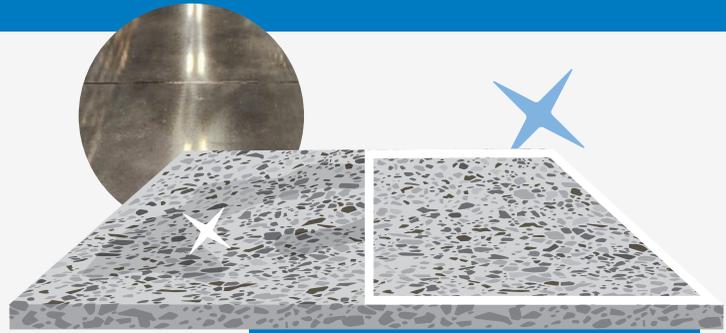

ECOLAB[®]

Daily Floor Care

✦ Clean and Maintain

- Clean and harden the surface with Daily Cleaner Densifier designed for concrete and terrazzo
- Use with the daily Diamond Impregnated Pad or a mop to help maintain shine during the daily cleaning process

Starting Floor Condition

- Minimal wear
- Good gloss

Daily cleaner plus densifier for continuous substrate repair

- Alkaline cleaner designed specifically for polished concrete and cement-based terrazzo
- Cleaner is formulated with reactive nano-silica densifier to harden the concrete as it cleans
- Free of chelating agents (water conditioners) which can negatively impact the polish
- Effectively cleans soils, fats and petroleum oils
- Low foaming for efficient autoscrubber use
- Fresh, clean scent
