

Liquid Live Bacteria with Enzymes

DESCRIPTION

Liquid Live Bacteria with Enzymes combines special multi-cultured strains of natural bacteria with the waste digesting properties of salmonella-free natural enzymes that are non-pathogenic and non-polluting. These anaerobic and aerobic bacteria have been cultured specifically for their ability to digest waste quickly and effectively, thus speeding up the normal breakdown process. Free enzymes are combined with the bacteria to make this product the fastest-working "bugs" in the industry. They quickly and effectively break down organic matter and the odors associated with decomposition. Recommended for use in grease traps, septic tanks, drain lines, holding tanks, and garbage areas to control odors and prevent buildup. It also makes an excellent carpet deodorizer.

Please read entire container label for detailed instructions and safety information.

DIRECTIONS

1

Wear safety glasses & gloves
Usar gafas de seguridad y guantes

2

Spray onto surface
Rociar sobre la superficie

3

Wipe clean
Limpiar con un trapo

4

Allow to air dry
Dejar secar al aire

FEATURES

- Non-polluting

ADVANTAGES

- Controls odors

BENEFITS

- Keeps drains clear

SPECIFICATIONS

Color White
Fragrance Fresh
pH Range 6.5 - 7.0
Dilution RTU
Density 8.34
