

TASKI® UltraPlus Interior

TASKI® UltraPlus Interior Mop Handles & Frames

The new generation of TASKI® UltraPlus handles and frames have been especially designed for the professional Jonmaster system.

Features & Benefits

- Mop frame can easily be bent into suitable shapes and then easily adjusted back into its original flat shape.
- Unique “click-fit” ensures the handles are secure and locked into place for operation.
- Top of the handle is rubber-coated to prevent sliding when placed against walls or tables.
- All UltraPlus handles can be autoclaved for sterilization.
- NEW color coded inserts for mop frames.
- The comfortable, soft rubber handle grip, with its ergonomic design, makes handling very user friendly.
- The mop frame is compatible with all TASKI UltraPlus handles to provide access to those hard to reach areas.
- The ergonomic handles allow the user to clean with little effort.
- Mop frame can be color coded for specific area cleaning and reduces risk of cross contamination.

Applications

- The robust handle is the perfect tool for dusting small spaces and hard-to-reach surfaces such as bookshelves, lamps, radiators and pipes.
- Ideal for hard to reach areas.
- Designed for healthcare, education, retail, government, lodging and BSCs.

UltraPlus Interior Mop Handles & Frames
