

MealMaster[®] and EarthChoice[®] **Rotisserie Chicken Containers**

Our chicken roaster packaging solutions offer multiple sizes and materials to meet your merchandising needs!

Venting

Built-in venting system allows steam to release, keeping food hot, juicy and delicious.

Superior visibility

Dome lids feature excellent visibility without condensation due to anti-fog technology. For optimal clarity, choose our oriented polystyrene (OPS) domes.

Reduced environmental impact

EarthChoice[®] mineral filled polypropylene (MFPP) bases are made with 50% less plastic than traditional polypropylene (PP) containers, reducing fossil fuel based material usage. PP dome lids are recyclable in the communities that accept these products. Check locally.

Versatile merchandising

Containers are suitable for both hot and cold applications, reducing operator SKUs and increasing efficiencies. Multiple sizes and materials are available for all chicken roaster needs.

High heat performance

Rotisserie Chicken Containers are suitable for merchandising in hot case displays, warming units and under heat lamps. EarthChoice MFPP bases and PP lids are also suitable for reheating in a microwave.

Transport with confidence

Our ZipSeal[™] Closure System's leak-resistant seal keeps package contents secure during transport. The easy-to-apply lid has an audible snap indicating the lid has been sealed.

What temperature range is recommended?

These guidelines are supplied to assist you in determining the proper use of Pactiv Evergreen products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier's recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you.
