

Safety Zone® Mid-Weight Vinyl Gloves, Powder-Free, 10x100, Clear, 3 mil - Medium

Safety Zone® Vinyl Powder-Free Clear Gloves are engineered to deliver dependable, economical hand protection for a variety of professional and everyday applications including food service, hospitality, cleaning, bussing, and general facility tasks. Constructed from 3 mil vinyl, these disposable gloves offer a stronger, more comfortable alternative to basic polyethylene gloves while maintaining flexible performance and adequate tactile sensitivity for routine work. The powder-free manufacturing process includes chlorination, making them easier to put on and take off even during fast-paced shifts, and the vinyl material is 100% latex-free, phthalate-free, and silicone-free to help reduce irritation and allergic reactions. Designed to meet FDA Rule 110.10 and 177.1950 standards for safe handling and contact with food, they support hygiene and regulatory compliance in environments where cleanliness and safety are essential. Clear in appearance with ambidextrous fit, these gloves balance comfort, utility, and value for frequent disposable use in busy workplaces.

****Safety Zone® packaging is being updated to a new look. The gloves are the exact same, but our branding and packaging is being updated. Please note that this will be a rolling change and you may receive mixed packaging styles until our inventory is depleted.****

Key Features

- Vinyl
- Powder-Free
- Medium-Weight
- Thickness: 3 mil
- Touch screen compatible
- Vinyl gloves are stronger than polyethylene gloves, and offer greater comfort for jobs like food preparation, bussing, and cleaning where gloves will be worn for a greater period of time
- Powder free gloves go through an extra process of chlorinating the gloves to ease donning
- 100% Phthalate Free, 100% Latex Free and 100%
