

Start OmniClean-ing

OmniClean features dual bucket technology to separate clean and dirty solutions, ensuring the StayClean charging bucket is always clean.

1. Cleaner:

OmniClean is **twice as effective** in removing microbes than traditional floor cleaning systems.

2. Faster:

OmniClean is over **40% faster** than regular floor cleaning systems.

3. Safer:

Floors cleaned with OmniClean dry **twice as fast** to significantly minimize slip risk.

The tests clearly show that the Unger OmniClean system maintains **far superior water clarity resulting in higher hygiene standards** than traditional mopping systems.

The integrated wringer, scrub pad and overall versatility improves productivity and is **easily maneuverable**. OmniClean is sturdy and compact yet lightweight and easy to use. It can be used and **stored in smaller places**, and is suitable for a wide range of uses.

Paul Trendall Sitemark Project Manager

Sitemark® provides independent best practice benchmarking of cleaning, recycling and general facilities management services and products.

NEVER CLEAN WITH DIRTY SOLUTION AGAIN!

HOW DOES THE SYSTEM WORK TO TRULY CLEAN FLOORS?

Scrub Board

Removes larger dirt particles from microfiber mop pad before placing in wringer.

Soil-Catching Bucket

Separated dirty solution bucket for all debris and dirt particles.

StayClean Bucket

Contains a constant supply of fresh cleaning solution. Splash-free guide minimizes spills during transport.

Ergonomic Handle

Adjustable height pole provides a customizable fit for the user. Dual swivel handle for offset or fixed handle for straight pole options available.

Microfiber Mop Pad

Mop pad with scrub bristles and color coding.

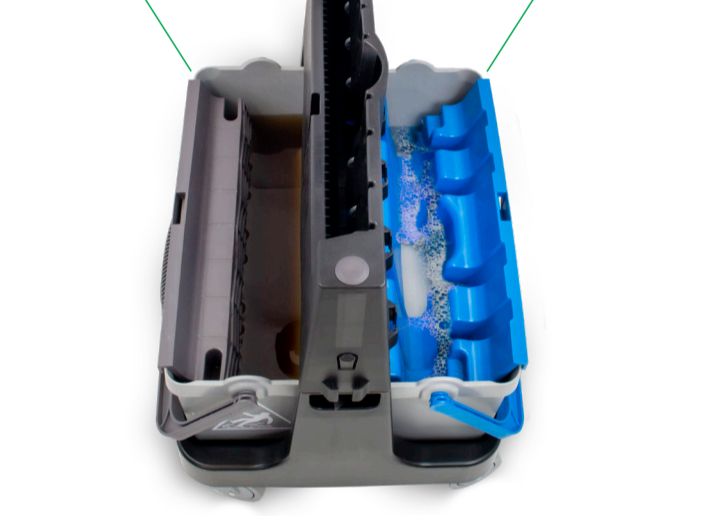

Innovative Wringer

Agitates remaining debris from microfiber mop pad resulting in cleaner solution and better cleaning performance.

HOW DOES THE SYSTEM SAVE YOU TIME & MONEY?

1. Conserve water and chemicals by over 75% by using microfiber mops

75%

2. 1.5-gallon capacity is half the size of traditional large chamber buckets – spend less time refilling and emptying buckets

3. Unique bucket design minimizes splash

HOW DOES THE SYSTEM PROTECT EMPLOYEES AND PATRONS?

Reduce Employee Fatigue

Ergonomic

Ergonomic pole design minimizes upperbody movement.

Customizable height

Adjustable handle for cleaners' height to reduce the need to bend over.

Light Weight

Flat mops are lighter weight and easier to maneuver than traditional string mops.

Easy to Lift

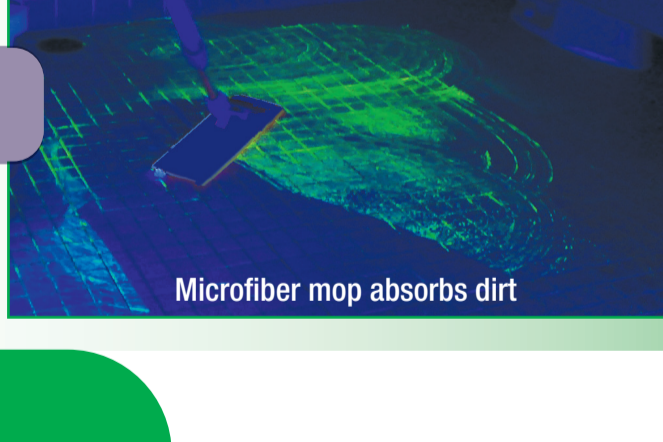

Buckets are lighter weight and are designed to be easier to lift and refill.

Patron Safety

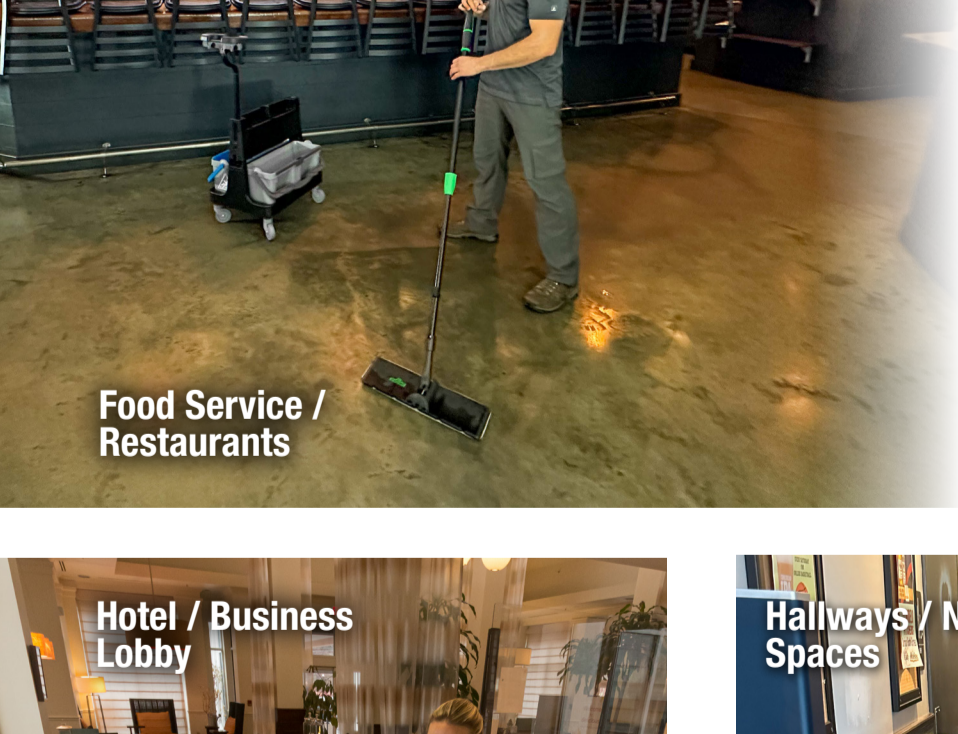

- Floors cleaned with OmniClean dry twice as fast to significantly minimize slip risk.
- Microfiber mops remove 96% of germs from floors and surfaces.

Cotton String Mop vs. Microfiber Mop

- Black light experiment reveals the advantages of using microfiber mops vs. cotton string mops.
- Green color represents dirt/germs left behind after mopping.

WHO AND WHERE IS THE OMNICLEAN BEST SUITED FOR?

Food Service / Restaurants

- Deep cleaning, overnight, end of day mopping, and day porters.
- Facilities with narrow hallways, narrow doorways and small storage closets that need a compact cart.
- Any location that values the highest level of clean like food service, hotel lobbies, high-end buildings, and education.

Hotel / Business Lobby

Hallways / Narrow Spaces

Gym / Workout Facilities
