

					
MAT TYPE	SCRAPER MATS	WIPER MATS	ANTI FATIGUE MATS	OIL ABSORBENT MATS	DRAINAGE OR FLOW THROUGH MATS
DESCRIPTION	Heavy-duty mats with raised treads to scrape dirt, debris, and liquids from shoe bottoms.	Designed to absorb water and trap small dirt and dust particles. Should be used with scraper mats.	When stepped on, they compress to help stimulate the muscles of the feet, legs, and lower back to reduce worker fatigue.	Built to contain oil and grease to prevent slips and falls.	Easily channel liquids down to the floor through holes or slots, keeping the mat mostly dry to prevent slips and falls.
FEATURES	<p>Features -Resistant to chemicals such as gasoline, oil, brake fluid and antifreeze.</p> <p>-Equipped with rubber or vinyl backing to provide added slip resistance.</p>	<p>-Derived from synthetic fibers (nylon, polypropylene, polyester) or non-synthetic fibers (i.e. natural fibers, cotton).</p> <p>-Synthetic fibers provide better stain and fade resistance, while natural fibers are more absorbent.</p>	<p>-Stimulates back, legs and feet for increased blood flow, reduced soreness, and limited worker fatigue.</p> <p>-From least to most expensive, these mats can be made from vinyl, rubber, or polyurethane.</p>	<p>-Constructed from cotton pile.</p> <p>-Designed to capture and absorb oils and other solvents.</p>	<p>-Holes filter liquid and small debris like food particles in kitchens to minimize floor hazards.</p> <p>-Offers extra traction in wet areas where there is an increased risk of slips and falls.</p>
APPLICATION	Outside entryways or in vestibules. Used as slip-resistant mat in wet areas.	Inside entryways.	Areas where workers are required to stand for an extended period of time.	Any oily environment throughout a facility.	Suitable for wet environments inside or outside of a facility.
PURPOSE	Entryway Matting: Defend Against Dirt, Liquid, & Chemical		Reduce Fatigue, Boost Productivity, and Increase Comfort & Safety	Prevent Slippery Floors & Protect Against Stains	Prevent Slips & Fall

Let an Imperial Dade Specialist review your current commercial floor mat program and help you identify areas to lower injury and reduce the risk of damage to your floors.
