

FLOOR PADS 101:

HOW TO CHOOSE THE RIGHT FLOOR PAD

MAINTENANCE TASK	EQUIPMENT TYPE	IMAGE (by pad color)		RECOMMENDED FLOOR PAD	SECONDARY FLOOR PAD
Cleaning: Remove dirt and soils from the surface of the floor.	Buffer/ Autoscrubber			Red: Good for every day cleaning. Removes light soils and dust.	
Scrubbing: Remove top layers of finish in preparation of adding additional layers of finish to the floors.	Buffer/ Autoscrubber			Blue: Good for heavy duty floor scrubbing.	Green: Good for deep-deep floor scrubbing.
Stripping: Remove all layers of floor finish to prep for fresh coats.	Buffer/ Autoscrubber			Black: The most aggressive floor pads. Good for removing many layers of floor finish.	SPP Pad: Good for chemical free floor finish. Aggressive enough to remove floor finish without chemicals.
Buffing: Preserve and enhance the shine of floor finish.	Buffer			White: Least aggressive floor pad type. Good for maintaining your desired level of shine.	Red: Good for smoothing out damaged floor finish and smoothing out finish.
Spray buffing: Fill in small gaps in the floor finish.	Buffer			White: Good for achieving an even shine without removing layers of finish.	
Burnishing: Remove scratches and scuffs from the surface of the floor finish.	Burnisher			Eraser Pad: Good for removing scuff marks from your floors.	Hogs Hair: Good for removing contaminants, like dirt, from the floor.
Burnishing Soft Finishes	Burnisher			Tan: Good for shining floor finish using synthetic fibers and hogs hair.	Aqua: Harder floor pad good for restoring high gloss to softer floor finishes.
Burnishing Harder Finishes	Burnisher			Hogs Hair: Good for creating a high gloss look on harder floor finishes.
