They Go**

Save with the Cascades PRO Tandem® Family

These lean, clean machines are sleek, innovative, and are equipped with handy features so that everyone can feel good.

Hygienic

Built for better hygiene

- Seamless finish with no more dirt-attracting corners.
- Textured finish for easier maintenance.
- No-touch guest experience.

Performance right down the line

The Cascades PRO Tandem® dispensers are 99.9% jam-free*, fast and reliable.

Durable

Quick load technology

Color-coordinated dispensers and paper rolls for quick and accurate dispenser reloading.

Quick-check design

Get an instant view of paper levels with a cleverly designed clear center-strip and clear top.

Productive

Locked & loaded

Same easy-to-find blue colored key for all Tandem dispensers.

Fast and simple key lock can be changed to a push-button with the slide of a finger.

Universal housing

Back housing fits main competitors' configurations, maximizing installation speed and minimizing wall damage.

*Based on Cascades' internal lab testing

Cascades PRO Tandem® Hand Towel Systems

Mechanical No-Touch Roll Towel Dispensers

High performance

Fast and reliable dispensing ensures a feel good experience for custodial staff and guests.

Zero-waste system

Use 100% of every roll and reduce waste with the stub roll function.

Easy angled paper access

Angled paper exit allows an intuitive and natural paper grabbing movement.

C340

C345

Electronic Roll Towel Dispensers

High performance

Fast and reliable dispensing ensures a feel good experience for custodial staff and guests.

Zero-waste system

Use 100% of every roll and reduce waste with the stub roll function.

Smart and reliable sensor

Large sensor zone allows quick on-demand paper supply.

Smart LED indicators

Save time and efforts to custodial staff thanks to smart LED indicators. The front facing LED light will blink when it's time to change the stub roll and the interior light will turn on when batteries need to be changed.

Customizable settings

- Ready to meet the unique hygiene needs of every facility.
- Easy to reach, understand and change.
- Choose your preferred settings between exposed sheet or sensor mode, sheet length (S / M / L) and time delay (0 sec. / 2 sec.).

C350

C355

Customizable settings

Multifold Towel Countertop Dispensers

The ideal solution for kitchens, cafeterias and restrooms with moderate traffic or in any other limited-space areas.

Quick, safe and easy to load

Only one hand needed to open the lid and load the dispenser.

One-at-a-time dispensing

Reduce consumption and waste.

Sleek and modern look

Designed to enhance the clean image of your establishment with an upscale seamless design that doesn't show fingerprints or dust.

Improves hygiene and reduces cleaning costs

Helps keep the floor dry and avoids slipping incidents when placed on a countertop close to a sink.

Different sizes of multifold hand towel paper

The first and only innovative countertop dispenser that can support two different sizes of hand towel paper, with the use of retrofit spacers*:

Without retrofit spacers: 9.1" X 9.45" sheet

With the use of retrofit spacers: 8" X 9.45" sheet

*Retrofit spacers are sold separately, see page 9 to 11 for more details.

C360

C365

Quick, safe and easy top loading

Small push button, no lock system

Quick and easy snap-in installation of retrofit spacers

Quick-check design

Very stable unit

One-at-a-time dispensing

Seamless finish

Compact and robust unit

Anti slip pads

Did you know? Hand dryers spread germs, unlike paper hand towels.

Numerous studies conclude that paper towels are the most hygienic choice for hand drying. Cascades PRO Tandem® hand towel systems feature touchless dispensing - a smart way to promote hygiene and reduce bacterial transmission.

Up to
+ 414%
bacteria

on fingers pads after drying.
Bacteria spreads up to 1.6 feet.

Up to
- 91%
bacteria

on fingers pads after drying.
No spreading of bacteria.

Cascades PRO Tandem® Toilet Paper Systems

Jumbo Roll Toilet Paper (JRT) Dispensers, Single or Double Roll

Smaller core size

Reduce waste and increase footage per roll.

Reduced over-spin

Expertly designed spindle limits the amount of paper dispensed with each pull, minimizing waste, paper consumption and risk of toilet clogging.

Safe tear

Eliminate risk of hand scratches and allow paper to safely tear in any direction.

Zero-waste system

- Use 100% of every roll and reduce waste.
- Single JRT dispensers include a stub roll holder that helps gain 200' of paper when the stub roll is inserted at 4" diameter.
- Double JRT dispensers help manage roll consumption by preventing access to the backup roll until the first one is empty.

Quick and intuitive loading

Non-sequential, hassle-free reloading.

C382

C383

C380

C381

High Capacity Toilet Paper Dispensers, Top Bottom, Side-by-Side or Four Rolls

Quick load technology

Quick and accurate dispenser reloading with color-coding system.

Handy flip mechanism and split loading

- No loading sequence, less frustration and no moving parts to handle.
- Handy flip mechanism allows custodial staff to quickly and easily move the backup roll into dispensing position and load a second roll at the top.

Reduced over-spin

- Limit the amount of paper dispensed with each pull.
- Reduce paper consumption, waste and risk of toilet clogging
- Save 2.5X more paper than standard roll.

Four Rolls

C312

All Cascades PRO Tandem® dispensers conform to ADA guidelines when properly installed.

Cascades PRO Tandem® Interfold Napkin Dispensers

One-at-a-time napkin dispensing

25 % reduction in consumption and waste compared to traditional napkin dispensers.

Quick maintenance

Translucent cover makes it easy to monitor napkin levels without opening the dispenser.

Sleek design

Fit seamlessly in any decor.

Sustainable option

Refill options are made from 100% recycled fiber and exceed EPA procurement guidelines.

Certification legend

CMA* is a global leader in providing industrial composting facilities an acceptance standard for compostables by performing field disintegration testing through several prominent processing methods to ensure products sent to industrial compost facilities adequately break down within the production cycle.

Certified for chlorine-free processing, energy and water efficiency, and 100% recovered/minimum 25% (bath tissue) or 50% (towels/napkins) postconsumer content. GreenSeal.org/GS1.

Product certified for reduced environmental impact.

100% of the electricity used to manufacture this product is matched with certified wind energy.

International certification and labeling system dedicated to promoting responsible management of the world's forests.

* Products with certification are suitable for industrial and municipal composting facilities, not for home composting. Please check locally, facilities may not exist in your area.

** All our JRT and HCB tissue products are safe for standard sewer and septic systems.
