Pacers Bikeshare is a program of Indianapolis Cultural Trail, Inc., launched in April 2014, with 250 bikes and 25 stations located on or near the Indianapolis Cultural Trail: A Legacy of Gene and Marilyn Glick. With corporate support, the program has grown to 29 stations. The City of Indianapolis, through a Congestion Mitigation and Air Quality Grant (CMAQ) grant, will invest over $1.2 million dollars in 2019, doubling the current Pacers Bikeshare system by adding approximately 25 new stations and 250 new bikes. The federally funded expansion area is highlighted in yellow on the map above. Expansion may also occur in other areas if funding is available.
