

ई-कचरे से जब खेती प्रभावित होगी तो खाने की थाली कैसे अच्छी होगी

कभी पीतल धातुका की पत्रिका से रोशन मुरादाबाद आज इलेक्ट्रॉनिक कचरे की भीषण समस्या से जूझ रहा है, इसे सफ़्त करने और जलाने का प्रयास करवाते पर भी पड़ रहा है। खेती में घुमा फलने से फसल बर्बाद हो रही है, इससे पहले कि यह समस्या विकराल हो जाए, आइए कुछ सोचें, कुछ करें।

दैनिक जागरण

E-WASTE DOESN'T JUST EFFECT THE CROPS. IT POLLUTES YOUR FOOD AS WELL.

Moradabad, the city known for illuminating the country with its brass business, is quickly turning into the capital of electronic waste business.

The practice of destroying E-waste is adversely affecting food crops, which effectively pollutes our food and nutrition. Before this problem goes out of control, let's take a stand and resolve to change this.

Unit: E-waste Free Moradabad

What is electronic waste? Obsolete and useless electronic items such as mother boards, electronic chips, circuit board cables, etc.

Dainik Jagran has started a special editorial series to keep the city of Moradabad healthy and pollution-free.

For more information on the campaign as well as joining it, keep reading Dainik Jagran.
