EASY ASSEMBLY

ONE PIECE

EASY WINTERIZING

The Fiesta is economical and very user-friendly. Ideal for aboveground pools with 48"-54" walls and a flat bottom, it's a sturdy step system that can be installed in seconds! Includes step cups, deck supports (on model 1001), and a front-loading ballast. It can also be installed on a pool with no deck with the Classic Ladder 6003 (non regulatory in Quebec) or the Self-Latching Ladder 9600.

Add some light!

INNOVALITE

9015-RGB/BT

- **Easy to install**
- **Choice of white LED lights or colors, Bluetooth-controlled**

- Outstanding resistance to UV rays.
- Meets current and proposed ISPSC standards.
- Deck Brackets included. (with 1001 only)
- Safe rounded slip-resistant corners and surfaces.
- Adjustable system for pools 48" to 54".

Aboveground pool step

The space between the interior wall of the pool and the step is secured, providing additional protection for children.

FRONT-LOADING COUNTERWEIGHT SYSTEM

This simple, removable counterweight system not only offsets flotation but also makes winterizing your step easier.

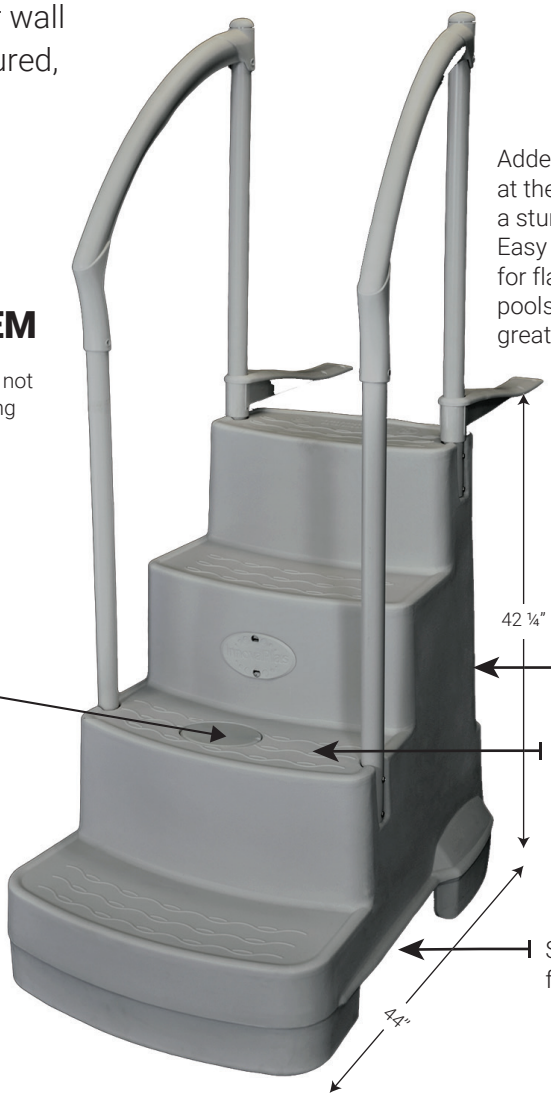

STEP CUPS

THE ULTIMATE IN LINER PROTECTION

Combined with the counterweight system, the Step Cups will maximize protection of your liner while keeping the step in position at the bottom of your pool by a suction concept. No need for sandbags with a deck application. (Canadian patent #2,612,816 - U.S. patent pending)
