

i-Step

Benefits of the Mini Royale II (iStep) **NEW**

- ✓ Robust: rotomolded fabrication, sturdier than injected steps
- ✓ Liner damage free installation in the pool thanks to the two patented suction cups that insure stability.
- ✓ Stackable in bigger quantity to a skid (25 units)
- ✓ Can be stored outside.
- ✓ Weight capacity up to 350 lbs (tested to 500 lbs)
- ✓ Light and easy to carry.
- ✓ UV-resistant treatment
- ✓ Quick handrail assembly
- ✓ Trendy design
- ✓ Removable front ballast (25 lbs only): allows quick addition or removal of the ballast when installing or removing the step.
- ✓ Takes little space in the pool, which is ideal for the smaller pools of the last few years.
- ✓ Possibility to quickly and easily add lighting.
- ✓ Possibility to add a second handrail to the opposite side of the step.
- ✓ Available in many colors: (PG - GR - MG)
- ✓ "Booking" price available
- ✓ Favorable conditions on "booking"

Complies with APSP standards

***Will last longer
than the pool !!!***
