

Warm-up Sequence:

In this warm-up students will get ready for a visual arts lesson.

1 STEP 1

Identify an object in the room to depict and create a contour line drawing of that object. A counter line drawing is a continuous drawing where the pencil never leaves the paper from the start of the process to the completion of the drawing.

2 STEP 2

Next have students begin at the start of the line and write a poem about the object they have chosen to depict. Have students write their poem about the object along the actual line of the contour line drawing. Instruct the students to continue writing their poem until they run out of line.

Lesson Application

This warm-up relates text and image and also focuses on line. Use this warm-up to engage students in mind connectivity before teaching a lesson that involves communication and interpretation.
