

May 13, 2016

Mexico City, Mexico, May 13, 2016 - Maxcom Telecomunicaciones, S.A.B. de C.V. (OTCQX: MXMTY, BMV: MAXCOM.CPO) ("Maxcom" or the "Company") announced today that, following up on the relevant event published on August 10, 2015; from April 01, 2018, Maxcom will no longer provide point to multipoint microwave links in Regions 3, 5 and 8 of the Mexican territory.

It is important to mention that Maxcom had no revenues from the operation of this service during 2015.

It should be noted that the other concessions granted to the Company are in place and operating and, therefore, there is no effect on the delivery of services to our customers nor on the Company's revenues.

#### **About Maxcom**

Maxcom Telecomunicaciones, S.A.B. de C.V., headquartered in Mexico City, Mexico, is an integrated telecommunication services provider using a "smart-build" approach to deliver "last-mile" connectivity services to micro, small, and medium-sized enterprises as well as to residential customers in the Mexican territory.

Maxcom launched its commercial operations in May 1999 and currently offers local and long distance telephone, data transmission, value added, paid TV, and IP-based services on a full basis in greater metropolitan Mexico City, Puebla, Queretaro, San Luis Potosi, Tehuacan, and Toluca, as well as in other cities in Mexico.

The information contained herein is the exclusive responsibility of Maxcom Telecomunicaciones, S.A.B. de C.V., and has not been reviewed by the Mexican National Banking and Securities Commission (the "CNBV").

The trading of these securities by an investor will be made under such investor's own responsibility.
