

Notice of Application
State Construction Permit
AR0022241C

Under the provisions of Act 163 of the 1993 Arkansas Legislature, this is to give notice the Office of Water Quality of Arkansas Energy & Environment-Division of Environmental Quality received an application for State Construction Permit Number AR0022241C on December 1, 2025, with all additional information received by January 14, 2026, from the following facility:

City of Danville-Wastewater Treatment Facility

1299 East 8th Street

Danville, AR 72833

The application has been deemed administratively complete and is undergoing technical review by the Office of Water Quality for compliance with State and Federal regulations. The facility under consideration is located as follows: 5th Street, Danville, in Yell County, Arkansas.

Proposed Construction will include sulfur dioxide dechlorination at Outfall 002. The existing treatment system for Outfall 002 is a coarse screen, grit removal, sequencing batch reactor, and chlorine disinfection. There is no change to the Outfall 001 treatment system or the design flow.

Interested persons desiring to request a public hearing on the application may do so in writing. The Division shall have the discretion to decide whether to hold a public hearing, unless otherwise required by law or regulation. If a hearing is scheduled, adequate public notice will be given in this newspaper. All requests shall be submitted in writing and must include the reasons for the necessity of a public hearing. All requests should be received by DEQ within 10 business days of the date of this notice and should be submitted to:

Guy Lester, P.E.
