Lake Maumelle and Lake Winona Safe Yield and Reservoir Modeling Study

Central Arkansas Water (CAW) is seeking Statements of Qualifications (SOQ) from qualified professional consulting firms with demonstrated expertise in reservoir safe-yield analysis and reservoir modeling. The selected consultant will evaluate the reliable and safe yield of Lake Maumelle and Lake Winona, develop decision-support tools, and review the technical basis of CAW's drought management triggers. Email Andrew Pownall, P.E, Andrew.pownall@carkw.com to obtain the statement of qualifications solicitation document. SOQ submission deadline: December 8, 2026, at 3:00 p.m. Central Time
