## MOUNT WASHINGTON BACKCOUNTRY

### TRIP OVERVIEW

A trip into the backcountry is always a special experience. The Mount Washington backcountry offers a number of great touring options. Your guide will choose a route for the day that is best suited to the conditions as well as the experience level, fitness and desires of the participants.

### PREPARATION

You will maximise your enjoyment on this trip by being prepared. The equipment list below will ensure you are comfortable regardless of the weather. The fitness suggestions will allow you to enjoy the day rather than struggling with it.

The choice to use alpine touring skis, telemark skis, or a splitboard is up to you. Choose the mode of transport you are most comfortable and competent with. Splitboards are welcome, but please ensure you are familiar with how they work and the limitations of the equipment.

If you don't yet own your own backcountry gear, [Ski Tak Hut](#) offers 50% off rentals (skins, boots, and skis) for all Island Alpine Guides customers while on any of our trips or courses. It's a great way to try it out before you commit. (Please note that they don't currently offer splitboard rentals.) **The voucher with further instructions can be found at the end of this document.** If you are using any of the equipment for the first time, it's a good idea to practise changeovers (downhill to touring mode) before the trip.

Please be sure to have all of the clothing and equipment on the attached list. Being cold and uncomfortable on the trip is unnecessary and unpleasant. A warm down or synthetic parka is useful to stay warm at rest stops. Extra gloves are useful as you may be digging around in the snow and your gloves can become soaking wet rapidly. A thermos of hot tea is a nice comfort!

Being physically fit will increase your enjoyment of the trip. Prepare by focusing on cardiovascular activity with a pack on. Walking or skiing up-hill with a pack makes excellent training, 2-3 times a week if possible.

### TYPICAL SCHEDULE

Our office will contact you regarding the exact meeting time and place. Generally, we like to make the most of the day by getting a reasonably early start, aiming to finish by around 4pm depending on the length of daylight.

## **MOUNT WASHINGTON BACKCOUNTRY**

Please be sure that all clothing and equipment is in good repair and functioning properly with boots fitted properly to bindings. If you're bringing your own avalanche transceiver, be sure that it has fresh batteries in it. Ensure skins are fitted properly to skis or boards and that they stick properly. Malfunctioning equipment uses up precious time for all participants. Please come properly prepared.

### **WAIVER**

A reminder that you will be required to sign our [waiver](#) on the first day of the course. Please be sure that you have read and understood this waiver before coming to the course. You will have read it during the online registration process but you can also read and download a copy at the link above. If you are a minor (under 19 years of age), we require your waiver to be signed by your parent or legal guardian. In this case, please download the waiver from the link above, print it, have your parent/guardian sign it, scan or photograph the completed copy and send it to [info@islandalpineguides.com](mailto:info@islandalpineguides.com). Minor students arriving without a waiver signed by their parent or legal guardian will not be allowed to participate in the course.
