

Solve the system of equations by elimination

$$-3x + 3y = -12$$

$$2x + 3y = 13$$

Solve the system of equations by elimination

$$x - 2y = 13$$

$$-3x - 2y = -15$$

Solve the system of equations by elimination

$$4x + 3y = -3$$

$$-2x + 2y = 12$$

Solve the system of equations by elimination

$$4x - 3y = 25$$

$$-3x + 8y = 10$$

Solve the system of equations by elimination

$$4x + 3y = -1$$

$$5x + 4y = 1$$
