

Solve the system of equations by elimination

$$4x + 3y = -3$$

$$-2x + 2y = 12$$

Solve the system of equations by elimination

$$2x - y = 9$$

$$3x + 4y = -14$$

Solve the system of equations by elimination

$$6x - 3y = -6$$

$$-5x + 7y = 41$$

Solve the system of equations by elimination

$$3x + 5y = 12$$

$$4x - 3y = -13$$
