

Properties of Congruence of Triangles

Reflexive **Property**Symmetric **Property**Transitive **Property**

Statements	Reasons

Reflexive Property

Given: $\triangle ABC$ Prove: $\triangle ABC \cong \triangle ABC$ 

Statements	Reasons

Symmetric Property

Given: $\triangle ABC \cong \triangle XYZ$

Prove: $\triangle XYZ \cong \triangle ABC$

Statements	Reasons

Transitive Property

Given: $\triangle ABC \cong \triangle XYZ$ and
 $\triangle XYZ \cong \triangle RST$

Prove: $\triangle ABC \cong \triangle RST$

Properties of Congruence of Triangles

Reflexive **Property**

$$\triangle ABC \cong \triangle ABC$$

Symmetric **Property**

$$\begin{array}{l} \text{if } \triangle ABC \cong \triangle XYZ, \\ \text{then } \triangle XYZ \cong \triangle ABC. \end{array}$$

Transitive **Property**

$$\begin{array}{l} \text{if } \triangle ABC \cong \triangle XYZ \text{ and } \triangle XYZ \cong \triangle RST, \\ \text{then } \triangle ABC \cong \triangle RST. \end{array}$$
