

Arithmetic Mean (Average)

The **arithmetic mean** of a group of **numbers** is the sum of all of the **numbers** divided by the **number** of items in the list.

Find the **arithmetic mean** of the following **numbers**.

4, 8, 12, 14, 15, 19, 20

The **arithmetic mean** of a group of **numbers** is the sum of all of the **numbers** divided by the **number** of items in the list.

Find the **arithmetic mean** of the following **numbers**.

24, 12, 18, 62

The **arithmetic mean** of a group of **numbers** is the sum of all of the **numbers** divided by the **number** of items in the list.

Find the **arithmetic mean** of the following **expressions**.

$$x + 3, x, 8, x + 6, x - 4$$

The **arithmetic mean** of a group of **numbers** is the sum of all of the **numbers** divided by the **number** of items in the list.

The **arithmetic mean** of the following **expressions** is **32**, solve for **x** .

$$x + 2, x + 6, 4, x - 7$$
