# **Oral Maxillofacial Prosthesis Policy**

# I. Purpose

Indiana University Health Plans (IU Health Plans) considers clinical indications when making a medical necessity determination for Oral Maxillofacial Prosthesis.

### II. Scope

This policy applies to all Utilization Management staff having decision-making responsibilities where authorization is required for Fully Insured commercial plan.

### III. Exceptions

None

#### **IV.** Definitions

None

### V. Policy Statements

IU Health Plans considers Oral Maxillofacial Prostheses medically necessary for **ONE** of the following indications:

1. <u>Mandibular resection prosthesis</u> is indicated when a portion of the mandible is missing or removed due to trauma or ablative surgery.

*NOTE*: Other prostheses, such as orbital and auricular, may also be needed following this type of surgery. Interim restorative supports such as oral surgical splints and obturator prostheses will be covered within the setting of a comprehensive and documented treatment plan. Maxillary and mandibular prostheses are frequently

- necessary for the restoration of function, as neither can function in the absence of an opposing surface.
- 2. <u>Implants</u>, which could be considered dental, but are being inserted to secure, attach, or support the maxillofacial prosthesis will be covered when the prosthesis is to be used secondary to maxillofacial surgery or repair of traumatic injury.
- *NOTE*: Use CPT code 21299 to bill the implants with an explanation of the intended use. Include the dates of trauma or tumor biopsy/resection, dates of radiation treatment and other pertinent medical history.
- 3. <u>Oral maxillofacial prostheses</u> used in the treatment of obstructive sleep apnea (OSA) will be covered when specifically fashioned to the needs and measurements of individual patients when used to treat essential sleep apnea and obstructive sleep apnea.

NOTE: Use CPT Code 21085 to represent this prosthesis and the work to develop it.
