IMPORTANT RECALL INFORMATION

Dear <<First Name>> <<Last Name>>,

We are sending you information about Hizentra® 20% (10 g/50 mL) that may be valuable to you.

On April 13, 2021 CSL Behring issued a voluntary recall of Hizentra® 20% (10 g/50 mL). **This recall was issued because of increased reports of injection-site reactions after administration.** The reactions reported included itching, redness and swelling around the injection site, all commonly reported reactions to Hizentra®. CSL Behring has advised that based on this, the potential safety risk to patients is considered low.

Our records show you may have received a prescription for this medicine recently from your retail pharmacy.

This recall affects lot number P100287881 exp. 05/25/2023.

To see if you have affected product, please check the lot number. The lot number is on the top of the box and on the manufacturer's label on the vial. If the product you have is not from lot number P100287881, it is not affected by this recall. If your product is from lot number P100287881, please contact the pharmacy that filled your prescription for further information, including return instructions.

Please call your doctor right away for advice if you may be using affected product or if you do not know if you used affected product or not. Your doctor is familiar with your medical history and can suggest the best treatment option for you. If you need a prescription for a different medicine, please call your doctor.

For more information, please call CSL Behring Medical Information toll-free at 1-800-504-5434 or e-mail MedInfoNA@cslbehring.com. You may also call the United States Food and Drug Administration toll-free at 1-888-INFO-FDA (1-888-463-6332) or visit www.fda.gov/cder.
